

Graphs

By: Novum Orbis

Differences

- Group 3, had different ordered graphs (A,B,C, etc.)
- Group 1, had a different description for graph B b/c they did not pay attention to the slope
- Group 1, had a different letter for graph F b/c they did not realize that there were two 3 seconds on the chart, meaning that the person would have to be in two places at once.
- In group 3, they put the R table with graph F rather than graph H b/c we did not see that there were two 3 seconds on the chart, meaning the person would have to be in two places at once
